Dear Editor in Chief of AACL Bioflux Journal
Dr. Ioan Valentin Petrescu-Mag

Hereby I would like to submit the manuscript entitled
“**Distribution and type of nesting habitat for green sea turtles (*Chelonia mydas*) in Pangumbahan Turtle Conservation Area, Sukabumi, Indonesia**”
to Aquaculture, Aquarium, Conservation & Legislation - International Journal of the Bioflux Society.

This manuscript was not submitted or published to any other journal.

I declare that the manuscript is an original paper and contain no plagiarised text.

All authors declare that they are not currently affiliated or sponsored by any organization with a direct economic interest in the subject of the article.

My co-authors have all contributed to this manuscript and approve of this submission.

We hope that this manuscript can be published in this journal.

Thank you for your attention.

Sincerely

Dear Dr. Dewi Elfidasari,

This is a message of confirmation regarding the reception of your manuscript **Distribution and type of nesting habitat for green sea turtles (*Chelonia mydas*) in Pangumbahan Turtle Conservation Area, Sukabumi, Indonesia**, submitted to our journal AACL Bioflux. I will soon contact you with further information regarding your manuscript.

If you can, please recommend 1 or 2 reviewers for your manuscript. If you cannot, there is no problem, I will search for reviewers.

For any questions, please contact me, on this email address.

Please try to keep one message thread (respond/ask with "Reply") for an easier message management.

Also, if you sent this manuscript to any other editor (except Dr. Petrescu-Mag, at zoobiomag2004@yahoo.com), please let me know, because only 1 editor should work on your paper. From this point forward, I am the editor in charge of this manuscript.

Thank you for considering our journal.

Best regards,

Tudor Papuc

Hello,

Your paper is preliminary accepted for publication. Please find attached the preliminary acceptance letter.

After this acceptance you should pay 250 USD for publication (open access).

As the payment and bank transfer may be time consuming you may start the process of payment right now; we will send you the invoice immediately after the payment.

Please let us know when the payment is done (scanned receipt) in order to start the publishing process.

In case the peer-reviews suggest rejection (there is one positive evaluation until now), we will return the payment. The payment will not be returned in case of withdrawal request by authors or simply lack of feedback.

Please note that the Publishing House Policy does not allow to start the manuscript editing prior payment.

Here are the info for payment;

take care to write correct the details:

Beneficiary: Bioflux SRL

City: Cluj-Napoca

Country: Romania, European Union

SWIFT CODE of the bank: BTRLRO22

Account USD: RO68BTRL01302202L28614XX

Bank: BANCA TRANSILVANIA

Important! When bank transfer is used to pay a publication fee, please pay attention to which modality of payment you chose! There are three options: Ben, Our, Us.

Use always "Us" option (meaning that all the bank transfer costs are in your concern/ authors support them and not the publisher). If you forgot to mention that and you let the bank to set "Ben" or "Our" options, we receive about 235 usd instead of 250 usd. Such payments are not valid and you need to pay again for the rest of the sum and one more transfer charge. This situation is not desirable.

There is a second method of payment, by Paypal, with credit card. Please let me know if you choose this method and I will redirect you to our colleague which is in charge of this procedure.

Let me know if you need more details.

Thank you for publishing with us!

Best regards,

Tudor Papuc

Subject: AACL Bioflux - manuscript reception confirmation

Dear Dr. Dewi Elfidasari,

This is a message of confirmation regarding the reception of your manuscript **Distribution and type of nesting habitat for green sea turtles (*Chelonia mydas*) in Pangumbahan Turtle Conservation Area, Sukabumi, Indonesia**, submitted to our journal AACL Bioflux. I will soon contact you with further information regarding your manuscript.

If you can, please recommend 1 or 2 reviewers for your manuscript. If you cannot, there is no problem, I will search for reviewers.

For any questions, please contact me, on this email address.

Please try to keep one message thread (respond/ask with "Reply") for an easier message management.

Also, if you sent this manuscript to any other editor (except Dr. Petrescu-Mag, at zoobiomag2004@yahoo.com), please let me know, because only 1 editor should work on your paper. From this point forward, I am the editor in charge of this manuscript.

Thank you for considering our journal.

Best regards,

Tudor Papuc

Subject: Re: AACL Bioflux - manuscript reception confirmation

Hello, I am back with the paper with comments. What you need to do is this:

1. Read all the paper carefully, because the English was corrected and the text was formatted.
2. Read carefully all the comments first (before starting the corrections, because some comments might relate to each other) and try to correct as best as you can. **Please work on this version of the manuscript. Please mark your changes (highlight with yellow, or use track changes; you can also leave the comments), so I can check them.** If you cannot correct, do not wish to do so, or have your own explanations, please write the reason as a reply to the comment or as a new comment.
3. If you have anything to add/change to the text not based on comments, please do so, but mark the changes like in point 2.
4. Try to respect the formatting when making changes.
5. After you make the corrections, please check again, to make sure everything is in order.
6. Send me back the corrected version of the manuscript.

I will check it, give it a final form, and send you the final version for a last check before publication.

Thank you,

Best Regards,

Tudor Păpuc

Editor, Bioflux

Yes. I am actually working on your paper. Currently I am at page 4, but I am working only on your paper until I can send it back to you for revisions.

It goes a little slower, because the English is bad in many parts. I think I will be able to send you the manuscript in 2-3 days. The reviews are both positive. You will have to make some revisions, but they are manageable.

So, please expect the paper in 2-3 days.

Best Regards,
Tudor Păpuc

Hello, yes, I have contacted the second reviewer and he will soon send the evaluation, which will most likely be positive.

Please expect the paper with comments from reviewers, formatted and with English corrected around 10 August.

Best Regards,
Tudor Păpuc

Subject: Re: AACL Bioflux - manuscript reception confirmation

Hello,

Your paper is preliminary accepted for publication. Please find attached the preliminary acceptance letter.

After this acceptance you should pay 250 USD for publication (open access).
As the payment and bank transfer may be time consuming you may start the process of payment right now; we will send you the invoice immediately after the payment.
Please let us know when the payment is done (scanned receipt) in order to start the publishing process.

In case the peer-reviews suggest rejection (there is one positive evaluation until now), we will return the payment. The payment will not be returned in case of withdrawal request by authors or simply lack of feedback.

Please note that the Publishing House Policy does not allow to start the manuscript editing prior payment.

Here are the info for payment;
take care to write correct the details:

Beneficiary: Bioflux SRL
City: Cluj-Napoca
Country: Romania, European Union

SWIFT CODE of the bank: BTRLRO22

Account USD: RO68BTRL01302202L28614XX

Bank: BANCA TRANSILVANIA

Important! When bank transfer is used to pay a publication fee, please pay attention to which modality of payment you chose! There are three options: Ben, Our, Us.

Use always "Us" option (meaning that all the bank transfer costs are in your concern/ authors support them and not the publisher). If you forgot to mention that and you let the bank to set "Ben" or "Our" options, we receive about 235 usd instead of 250 usd. Such payments are not valid and you need to pay again for the rest of the sum and one more transfer charge. This situation is not desirable.

There is a second method of payment, by Paypal, with credit card. Please let me know if you choose this method and I will redirect you to our colleague which is in charge of this

procedure.

Let me know if you need more details.

Thank you for publishing with us!

Best regards,

Tudor Papuc

Hello,

Thank you for writing to me from the gmail address.

I checked my messages and I don't have any message from you in 27 August.

It is clear that you sent the message from the attachments you provided. So, the message did not reach my inbox (or spam folder, I checked). In very few cases, we had similar problems with messages from authors from Indonesia, where the address is institutional and finishes with .id (this is the first case for me, but my colleague editors told me that they had this problem).

However, it is great that you were able to reach me from the gmail address. I would have sent you a message to ask about the revisions, but only after 60 days after I had sent you the paper for revision, so this would have been around 10 October.

Anyway, I now received the corrected paper and should soon be back with the final version, for a last check before publication (in 1-2 weeks, or sooner). I will probably send you the final version on both email addresses, to be sure it reaches you.

Thank you,

Best Regards,
Tudor Păpuc

Dear Mr. Tudor Papuc

Thank you so much for this explanation.
I'm very pleased to receive this email from you

I have one more question, If I want to send another article to publish in AACL Bioflux, is there any other email address except zoobiomag2004@yahoo.com?
Because I sent my email to that email address until now there is not any answer or feedback from AACLBioflux Journal Editor

Thank you so much
Best Regard

Hello,

That would be the official address where you can submit a manuscript. But, you can submit a manuscript directly to me, on this email address, or to one of the Bioflux editors you already worked with, on their email addresses. It is important to avoid working with more than 1 editor, so you should only send it to one person, then wait for the response. Also, if you sent it recently, maybe wait 1-3 more days, because sometimes it takes the editor in chief a few days to send the paper to one of the other editors and that editor might need another few days to respond.

Also, please find attached the final version of the paper. The changes are accepted and there are no new comments. The part in Material and Method about diversity, density, dominance, relative dominance, relative frequency and IVI was removed, because you do not present any results about them. Everything else is ok, and the paper is publishable without that part.

Please read this version carefully. If you want to add or change something, please do so, but mark the changes with yellow highlight, as you did before. This would be the last time you can make changes to this paper, because we cannot change anything after publication.

Either send me your reply if everything is ok, or the paper with changes if you have changes. I will also check it again, and publish it in 1-3 days after I receive your reply. I will let you know after the paper is published.

Thank you,

Best Regards,
Tudor Păpuc
